Transportation Revenue Forecast Reductions (Six Year Estimates)

Spring 2008

February 2009

August 2009

\$1.1 billion

\$2.6 billion

\$0.9 billion

\$4.6 billion

Reasons for Revising FY 2010 Budget and FY 2010 – 2015 Financial Plan

The state revenue outlook has been updated twice since the budget and program were approved in June

The November transportation forecast shows an FY 2010 revenue reduction of \$152.6 million and a total reduction of \$875 million for the six-years FY 2010-2015 – a slight improvement from the August forecast

Additional state and federal reductions are likely in upcoming revenue forecasts

Commonwealth Transportation Fund Revenue Changes

In addition to the updated state revenue forecasts, the budgets are being revised to include:

- Planned use of CPR bonds
- Receipt of \$28 million of federal bonus obligation authority
- Notice of \$8 million of federal open container funds
- Reduced local revenues related to the revenue sharing program
- Reduced general fund support to the Route 58 program
- Other miscellaneous changes

These revisions bring the total to \$851.5 million over the six-years

Revised FY 2010 – 2015 Assumptions

Program reductions include removal of previously planned employee pay increases in FY 2011 and 2012

Maintenance funding was reduced to balance FY 2010

Future growth of maintenance funding returned to 4% annually based on the reduced FY 2010 amount

- Total maintenance funds are less than original FY09 amounts
- Secondary and urban maintenance funds will not meet maintenance needs
- Required an increased level of federal funding to support growth

Revenue sharing program reduced to \$15 million in FY 2011 and eliminated beginning in FY 2012 – requires budget action

Capital Projects Revenue Bonds (HB3202 Bonds)

The use of the Capital Projects Revenue (CPR) Bonds has been constrained from the original plan envisioned when HB 3202 was passed

The original plans for the bonds provided significant funding for statewide and regional projects

The bonds have been included in the SYIP since FY 2008

With the revenue reductions that have been experienced, the main focus of the bonds today are to provide transit and rail support and match for federal funds

Capital Projects Revenue Bonds (HB3202 Bonds) Legislative Directed Use

HB 3202 directed the proceeds of the CPR bonds to be used for the following items in the listed priority order:

- 1. A minimum of 20% of the bond proceeds shall be used for transit capital
- 2. A minimum of 4.3% of the bond proceeds shall be used for rail capital
- 3. The remaining amount of bond proceeds shall be used for the construction of transportation projects as follows:
 - (a) to match federal highway funds
 - (b) to provide any required funding to fulfill the Commonwealth's allocation of equivalent revenue sharing matching funds
 - (c) to pay or fund the costs of statewide or regional projects throughout the Commonwealth

Capital Projects Revenue Bonds (HB3202 Bonds)

FY10-FY15 budget assumes issuance of \$500 M in FY10 and \$300 M in out years

Ability to meet this commitment has significant risks

- Available state debt capacity
- Insurance premium revenue reductions

Bond proceeds are necessary to fully match federal funds in every year of the budget
