

# STATE OF GOOD PROGRAM UPDATES

Distribution Percentage Change

Garrett Moore, Chief Engineer

# State of Good Repair Program Section 33.2-369, *Code of Virginia*

| Description                       | Pavement  | Bridge  |  |  |  |
|-----------------------------------|---|---|--|--|--|
| Purpose                           | Reconstruction/Rehabilitation (Deteriorated)  | Reconstruction/Replacement (Structurally Deficient) |  |  |  |
| System                            | Interstate/Primary/Primary Extensions   | All Systems (VDOT and Locally Maintained)           |  |  |  |
| Priority Ranking<br>Consideration | Mileage, Condition, Costs   | Number, Condition, Costs                            |  |  |  |
| Distribution                      | All nine construction districts receive allocations each year  Based on needs  Minimum allocation of 5.5% and maximum allocation of 17.5% per district per year |   |  |  |  |
| CTB Approved Waivers (Optional)   | Key Project - extraordinary circumstances only – the maximum allocation of 17.5% can be waived in a given year  |   |  |  |  |
|                                   | 20% - Secondary Pavements (Optional if VDOT secondary target not met)   | N/A   |  |  |  |

# State of Good Repair Program Three Test Requirement

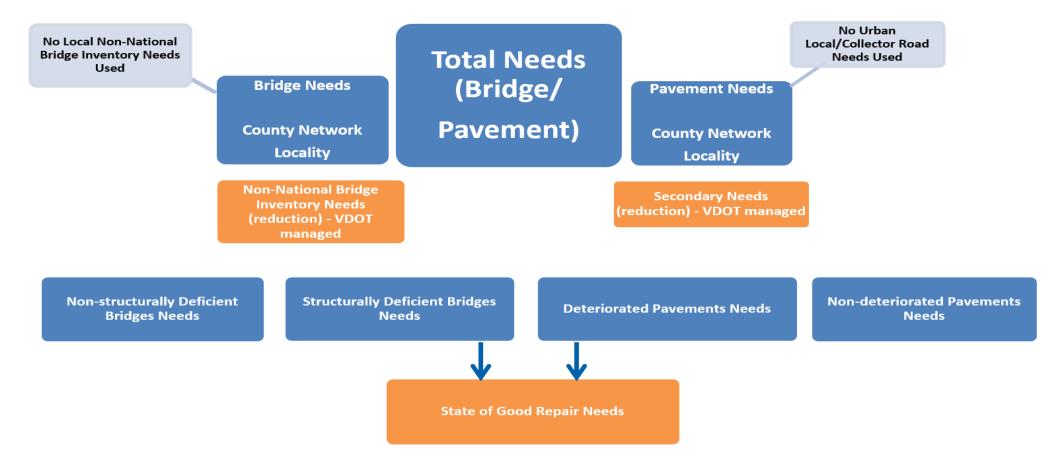

| Tests*          | Pavement   | Bridge   |  |  |
|-----------------|--|--|--|--|
| 1               | Improves the pavement condition to "fair" or better status   | Removes from structurally deficient status   |  |  |
| 2               | Meets definition of pavement rehabilitation and reconstruction in Federal Highway Administration's memo dated 9/12/2005 (see link below) | Meets definition of bridge rehabilitation and replacement in Federal Highway Administration's Bridge Preservation Guide dated August 2011 (see link below) |  |  |
| 3               | Adds or res  | tores strength   |  |  |
| FHWA Memo Links | FHWA's Memo – September 12, 2005 - Pavement Preservation  Definitions  FHWA's Memo - February 25, 2016 - Pavement Preservation           | FHWA's Bridge Preservation Guide – August 2011 – Maintaining a State of Good Repair Using Cost Effective Investment Strategies                             |  |  |

<sup>\*</sup>All three tests must be met in order to qualify

| Additional Requirements  | Description   | Completed Items                      | Outstanding<br>Items   |
|--|---|--------------------------------------|--|
| HB1887 (Chapter 684) – 2015 Acts of<br>the Commonwealth of Virginia General<br>Assembly – Section 33.2-358                 | FY 2021 (July 1, 2020) - 45% of<br>Construction Program allocated to<br>State of Good Repair Program          |                                      | State of Good Repair Program full implementation FY 2021 (July 1, 2020)  |
| HB1887 (Chapter 684) – 2015 Acts of<br>the Commonwealth of Virginia General<br>Assembly – Second Enactment                 | CTB required to approve the State of<br>Good Repair Program priority ranking<br>system policy by July 1, 2016 | CTB approved resolution<br>June 2016 |  |
| State Budget Bill – 2016 Acts of the<br>Commonwealth of Virginia General<br>Assembly – HB30 (Chapter 780) – Item<br>453(J) | Allocated funds to the State of Good<br>Repair Program starting in FY 2017<br>(July 1, 2016)                  | CTB approved resolution June 2016    |  |
| CTB approved resolution June 2016  | Requires updated funding distribution percentages in FY 2019 (July 1, 2018)                                   |                                      | Plan for CTB presentation in April 2018 and request approval in May 2018 |

Fund distribution process involves several steps as the following flow chart shows

VDOT compiles the costs to repair/improve VDOT/Localities bridges and pavements - 100% or *unconstrained needs* 

Total Needs (Bridge/ Pavement)

| Bridge   | Pavement   |  |  |
|--|--|--|--|
| Defin  | nition   |  |  |
| All necessary and recommended repairs are completed or General Condition Rating 6 or above | Fix everything to 100% sufficient or Critical Condition Index above 60 |  |  |

In FY 2018 (CY 2017), Total unconstrained VDOT/Localities needs for Bridges (\$7.9 B) and Pavements (\$5.2 B) which total \$13.1 B

#### Review the needs available for VDOT/Localities

| Bridge  | Needs                                    | Pavement Needs                         |   |  |
|---|--|--|---|--|
| Localities VDOT                                 |  | Localities                             | VDOT  |  |
| Only National Bridge Inventory* Needs Available | Use only National Bridge Inventory Needs | Only Primary Extension Needs Available | Use only<br>Interstate and<br>Primary Needs |  |

<sup>\*</sup>National Bridge Inventory includes bridges on public roadways exceeding 20 feet in length.

## Separate needs based on status – final result State of Good Repair Needs

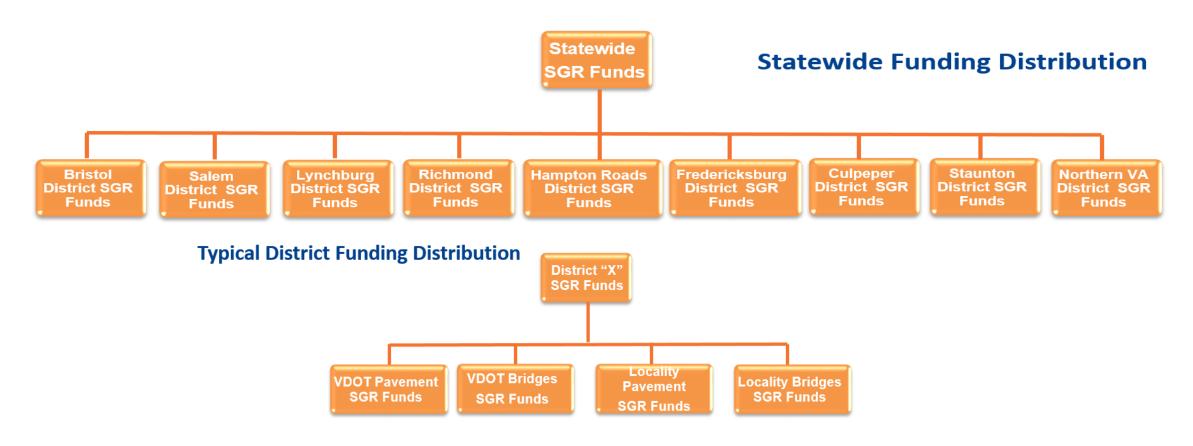

| National Bridge Inventory Needs (VDOT/Localities) |  | Interstate, Primary and Primary Extension Pavement Needs (VDOT/Localities) |                                    |  |
|---|--|--|------------------------------------|--|
| Non-structurally<br>Deficient Bridge<br>Needs     | Structurally<br>Deficient* Bridge<br>Needs | Deteriorated** Pavement Needs  | Non-deteriorated<br>Pavement Needs |  |
|   | State of Good                              |  |                                    |  |

<sup>\*</sup>Structurally deficient – if one or more major bridge components (deck, superstructure, substructure or culvert) is deficient.

<sup>\*\*</sup>Deteriorated – if pavement has a critical condition index of less than 60 or poor.

Based needs and the funding limits each district receives funds in 4 areas as shown

# State of Good Repair Percentages Original Used in FY 2017 and FY 2018\*

| District          | FY 2017 (Based                             | VDOT     |        |       | Localities |        |       |
|-------------------|--|----------|--------|-------|------------|--------|-------|
|                   | on previously<br>proposed<br>distribution) | Pavement | Bridge | Total | Pavement   | Bridge | Total |
| Bristol           | 11.70%                                     | 21%      | 64%    | 85%   | 2%         | 13%    | 15%   |
| Salem             | 12.10%                                     | 21%      | 67%    | 88%   | 3%         | 9%     | 12%   |
| Lynchburg         | 7.60%                                      | 29%      | 63%    | 92%   | 5%         | 3%     | 8%    |
| Richmond          | 17.40%                                     | 25%      | 65%    | 90%   | 4%         | 6%     | 10%   |
| Hampton Roads     | 14.80%                                     | 7%       | 38%    | 45%   | 25%        | 30%    | 55%   |
| Fredericksburg    | 12.10%                                     | 18%      | 77%    | 95%   | 2%         | 3%     | 5%    |
| Culpeper          | 6.00%                                      | 25%      | 45%    | 70%   | 3%         | 27%    | 30%   |
| Staunton          | 7.90%                                      | 13%      | 76%    | 89%   | 4%         | 7%     | 11%   |
| Northern Virginia | 10.60%                                     | 27%      | 61%    | 88%   | 11%        | 1%     | 12%   |

<sup>\*</sup>Chart used VDOT input that was adjusted in the legislative process

# State of Good Repair Percentages – Update Baseline\* - FY 2019 and FY 2020

| District          | EV 2040 Undete | VDOT     |        |       | Localities |        |       |
|-------------------|----------------|----------|--------|-------|------------|--------|-------|
|                   | FY 2019 Update | Pavement | Bridge | Total | Pavement   | Bridge | Total |
| Bristol           | 12.53%         | 18%      | 60%    | 78%   | 2%         | 20%    | 22%   |
| Salem             | 11.40%         | 25%      | 59%    | 84%   | 6%         | 10%    | 16%   |
| Lynchburg         | 6.39%          | 22%      | 63%    | 85%   | 9%         | 6%     | 15%   |
| Richmond          | 17.50%         | 17%      | 71%    | 88%   | 4%         | 8%     | 12%   |
| Hampton Roads     | 17.50%         | 3%       | 37%    | 40%   | 26%        | 34%    | 60%   |
