

I-95 Corridor Improvement Plan

Potential Multimodal Improvements

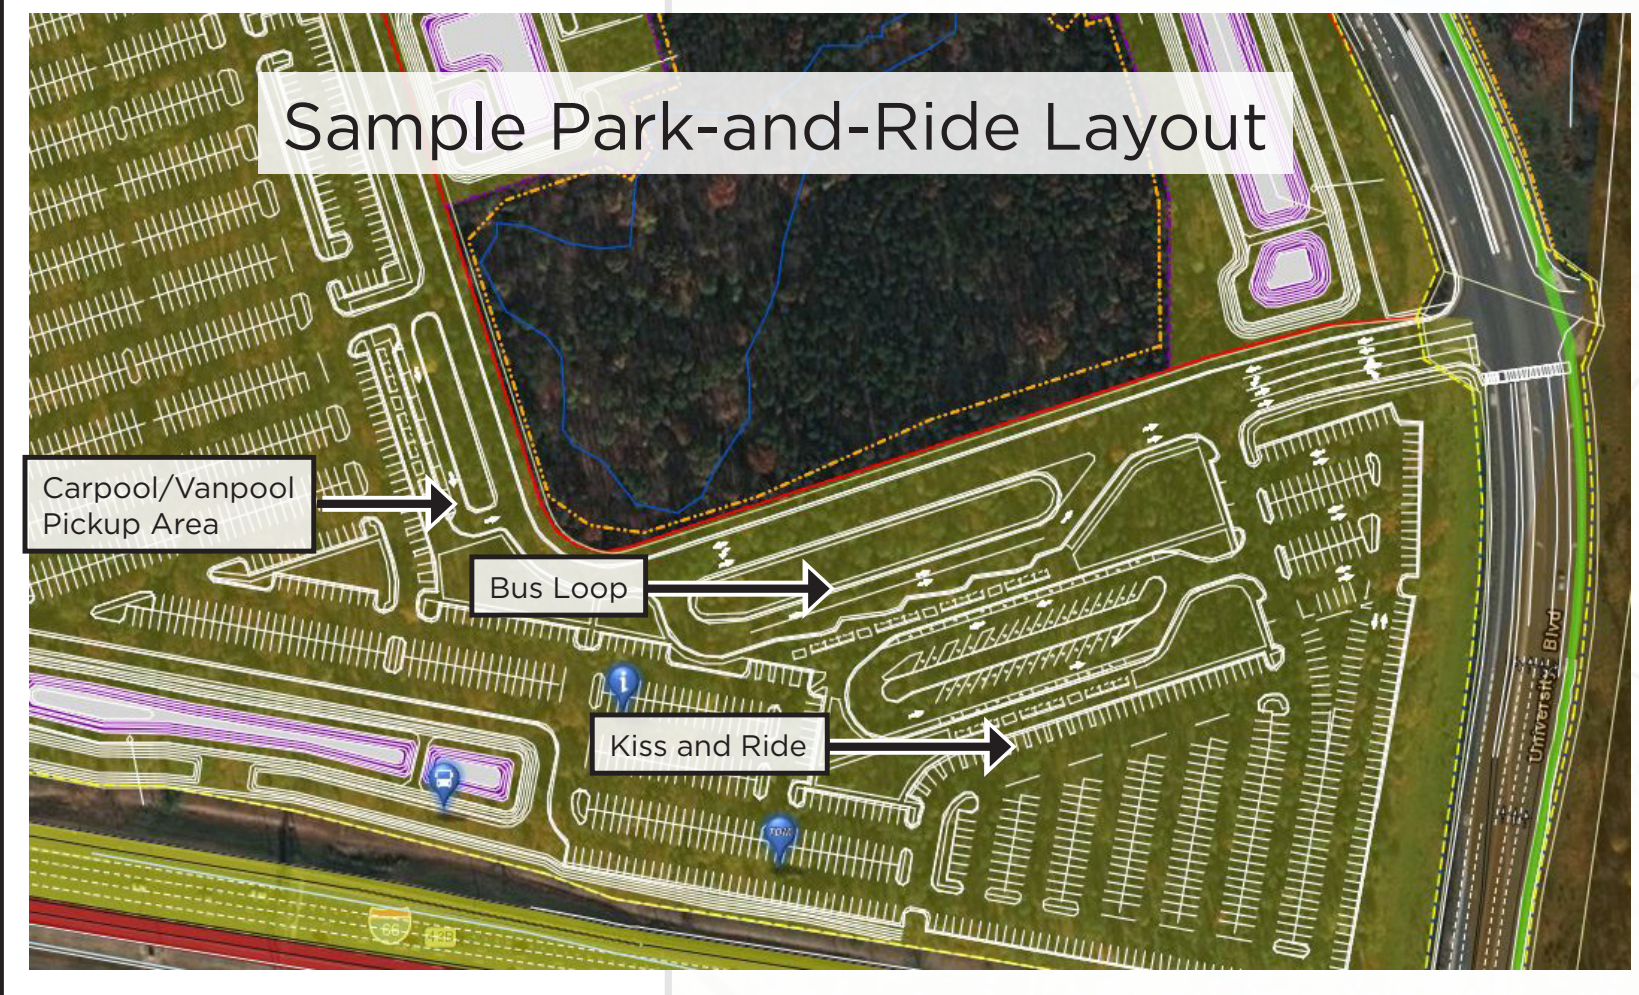

ARLINGTON AND WASHINGTON DC RAIL IMPROVEMENTS

- Long Bridge Crossing Expansion (see project board)
- Crystal City Station Improvements
- L'Enfant Station Improvements

Park-and-Ride Lots

- New or expanded park-and-ride lots
- Connections to existing and future bus service
- Include carpool, vanpool, and slugging considerations in design

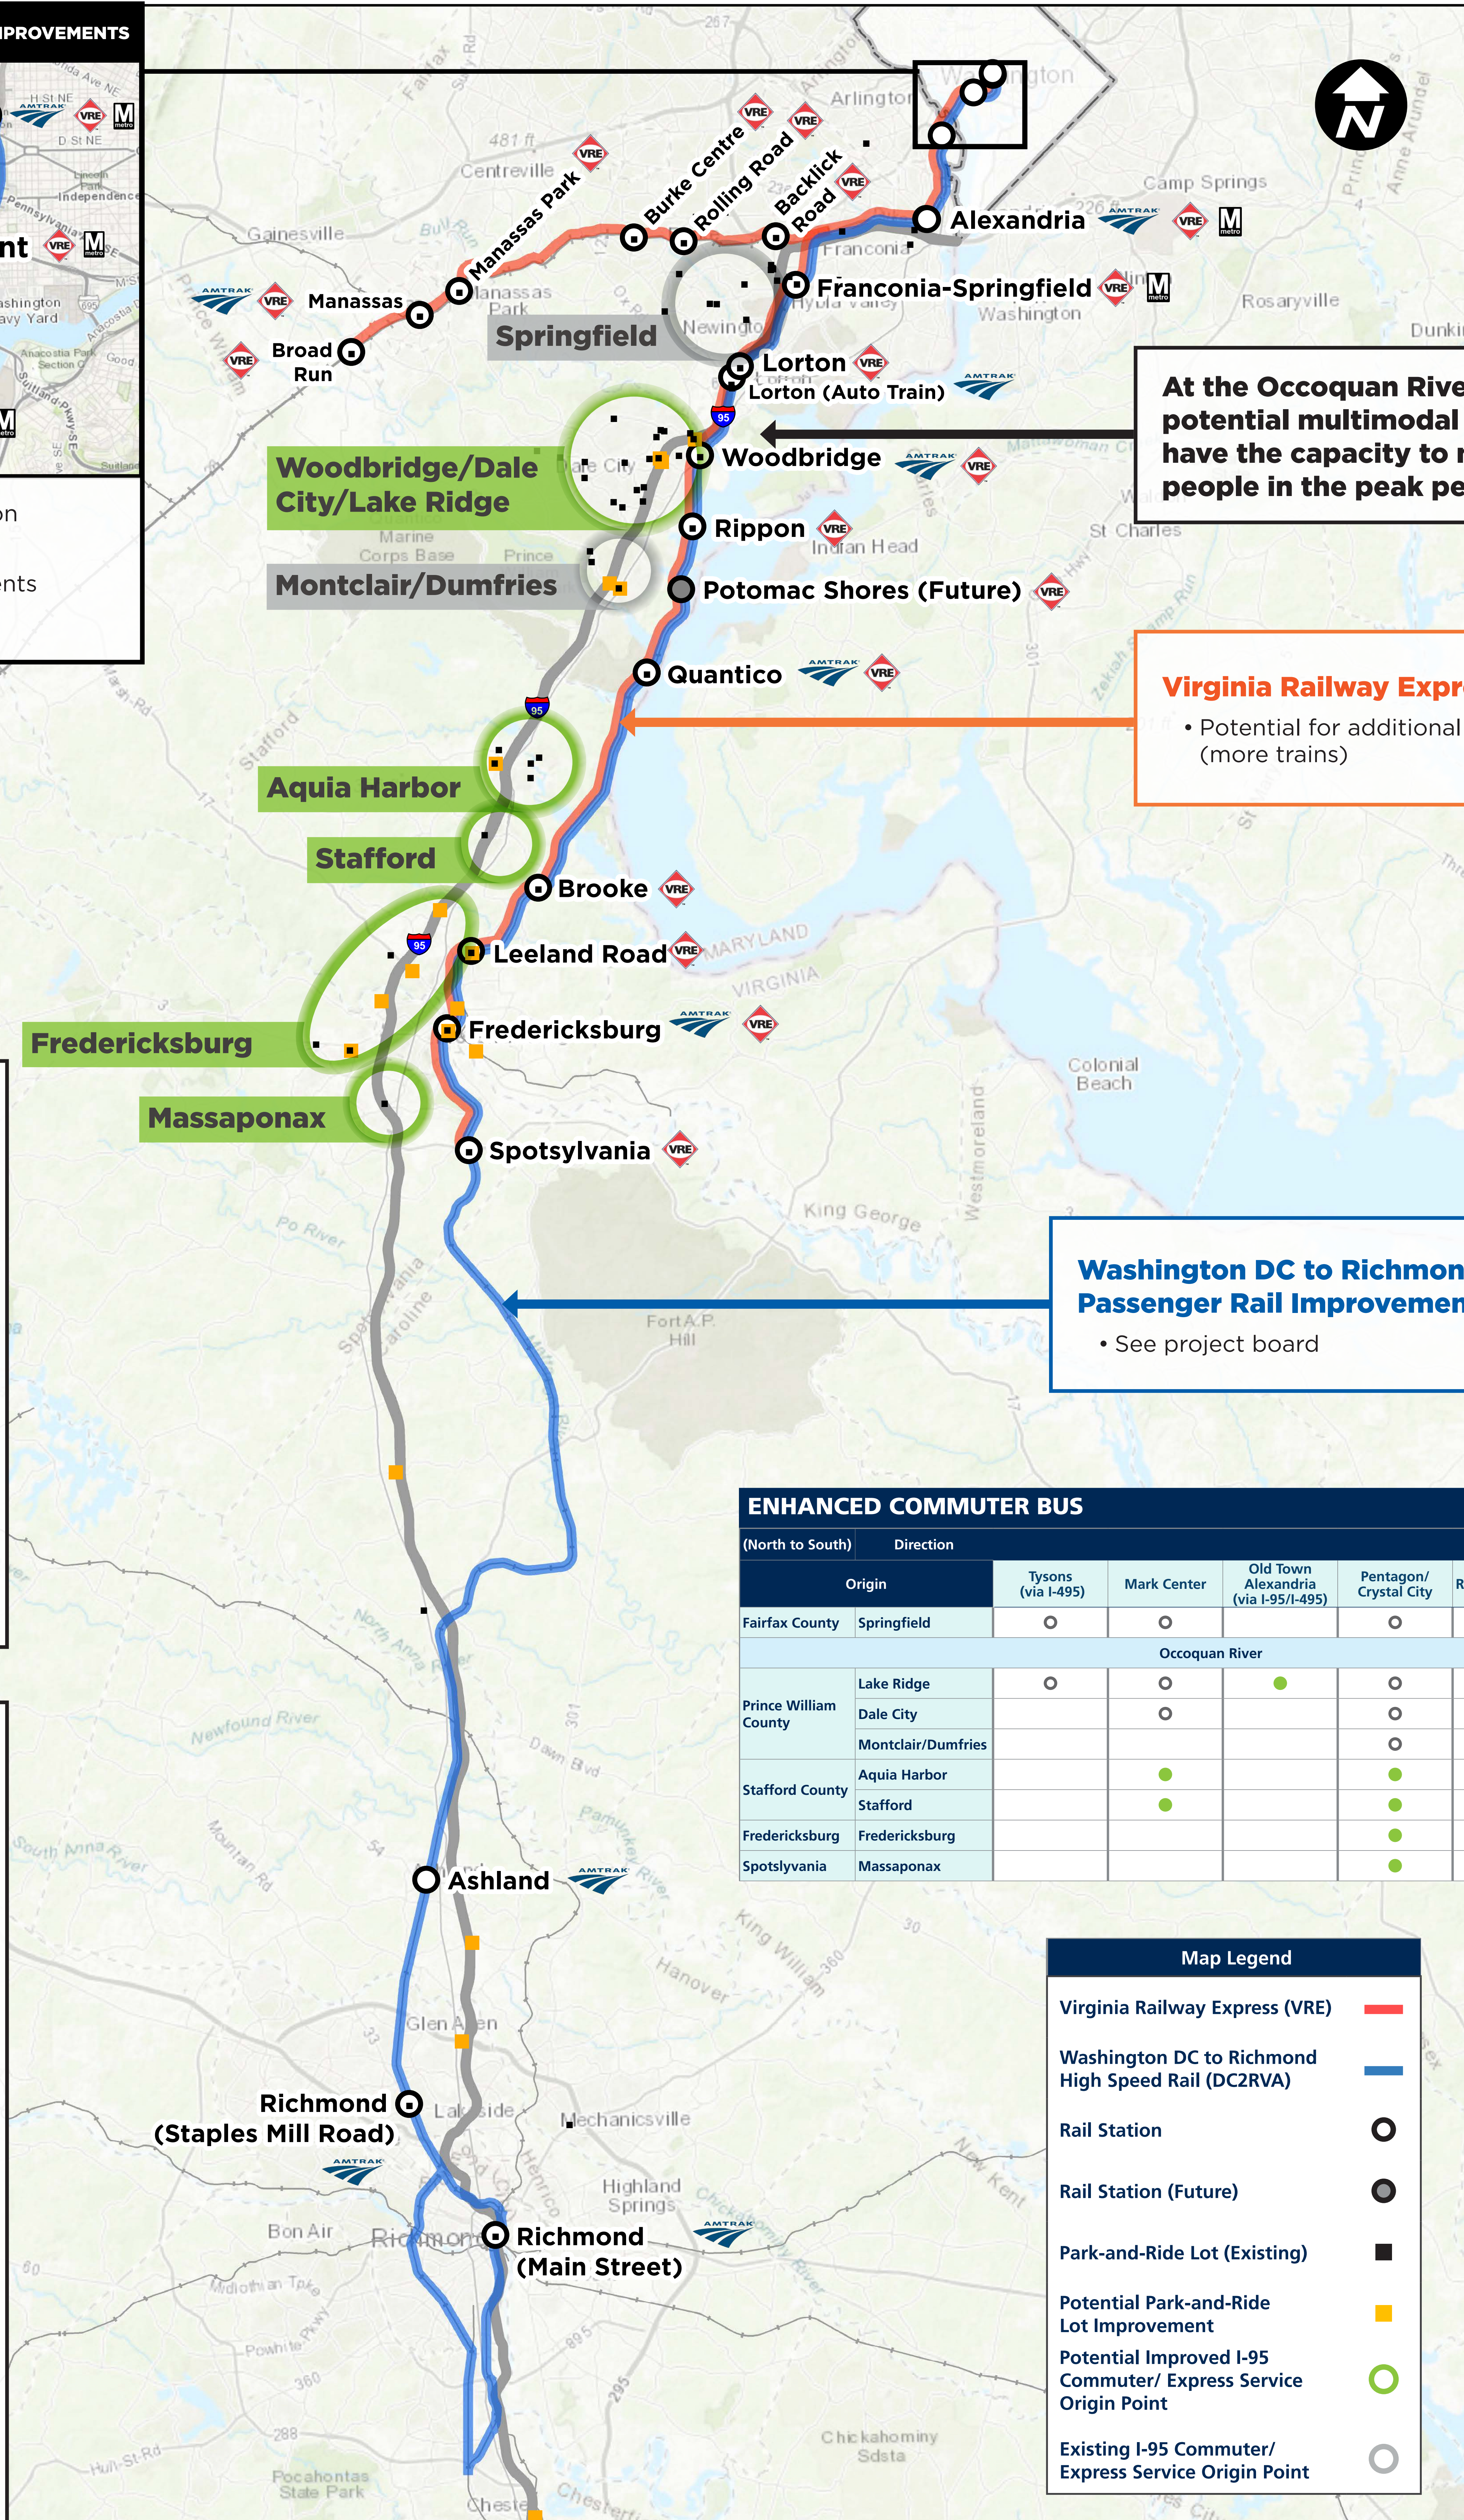

Strategic Marketing and Promotion of Travel Options

- Marketing is targeted to corridor travelers with emphasis on the most congested segments of I-95
- Coordinated marketing messaging with local commuter assistance programs
- Target employers with high concentration of employees that commute on I-95

Marketing and Promotion of:

- Commute!VA website and mobile app multimodal travel options and ridematching
- Carpool, vanpool, transit, rail and telework options
- Commute!VA rewards for carpool, vanpool, transit, commuter rail and telework
- Existing carpool and vanpool incentives and formation assistance
- Using the Express Lanes free with EZ-Pass Flex and a carpool/vanpool of 3+ (including driver)

At the Occoquan River, the potential multimodal improvements have the capacity to move more people in the peak period

Virginia Railway Express (VRE)

- Potential for additional service (more trains)

Washington DC to Richmond Intercity Passenger Rail Improvements (DC2RVA)

- See project board
