ROUTE 460 SOUTHEAST LOCATION DECISION REVIEW

Angel Deem, VDOT Chief of Policy

April 18, 2023

CTB Location Decision Policy

- In September 2022, the CTB adopted policy to review all location decisions 3 years after approval
- The 460 Southeast Location Decision is one of four location decisions VDOT identified for review
- Earlier this year, CTB addressed the first of these decisions when it rescinded the location decision for the Interstate 77/Interstate 81 project

Background - NEPA Review

- July 2003 VDOT and FHWA initiated an EIS for a new alignment for Route 460 from Interstate 295 in Petersburg to the Route 58 bypass in Suffolk
- November 2005 CTB Location Decision for build alternative on new location south of existing Route 460
- September 2008 FHWA issued a Record of Decision (ROD) approving the preferred alternative
- 2013 FHWA, VDOT, and the U.S. Army Corps of Engineers (USACE) initiated a Supplemental EIS (SEIS) to re-evaluate alternatives to support the USACE permit
- February 2015 CTB rescinded its 2005 decision and issued a new location decision for the project
- June 2016 Final SEIS issued documenting the new CTB decision

Background – P3 Project

- Contract executed in December 2012 for \$1.4 billion
 - > 55-mile toll road between Petersburg & Suffolk south of existing Route 460
- Contract suspended in March 2014 to curtail spending while environmental approvals were secured
- Contract terminated in April 2015

Purpose and Need Identified in the 2014 Draft SEIS:

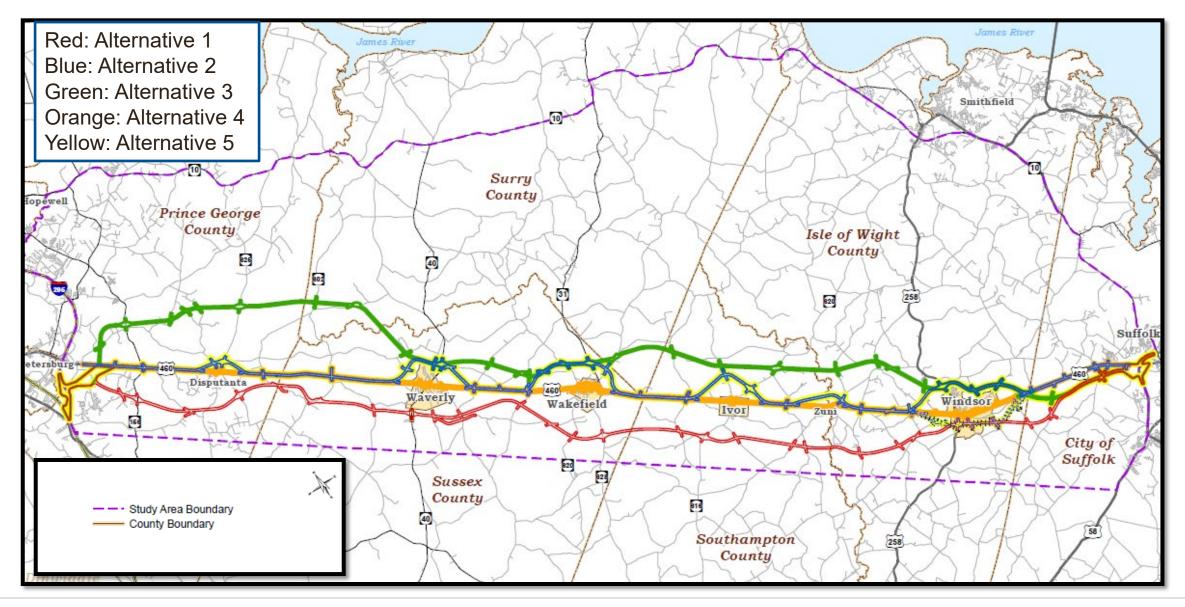

Construct a facility that is consistent with the functional classification of the corridor, sufficiently addresses safety, mobility, and evacuation needs, and sufficiently accommodates freight traffic along the Route 460 corridor between Petersburg and Suffolk, Virginia.

The following needs were documented in the SEIS:

- Address roadway deficiencies
- Improve safety
- Accommodate increasing freight shipments
- Reduce travel delay
- Provide adequate emergency evacuation capability
- Improve strategic military connectivity
- Support local economic development plans

Route 460 Southeast 2014 Draft SEIS Alternatives

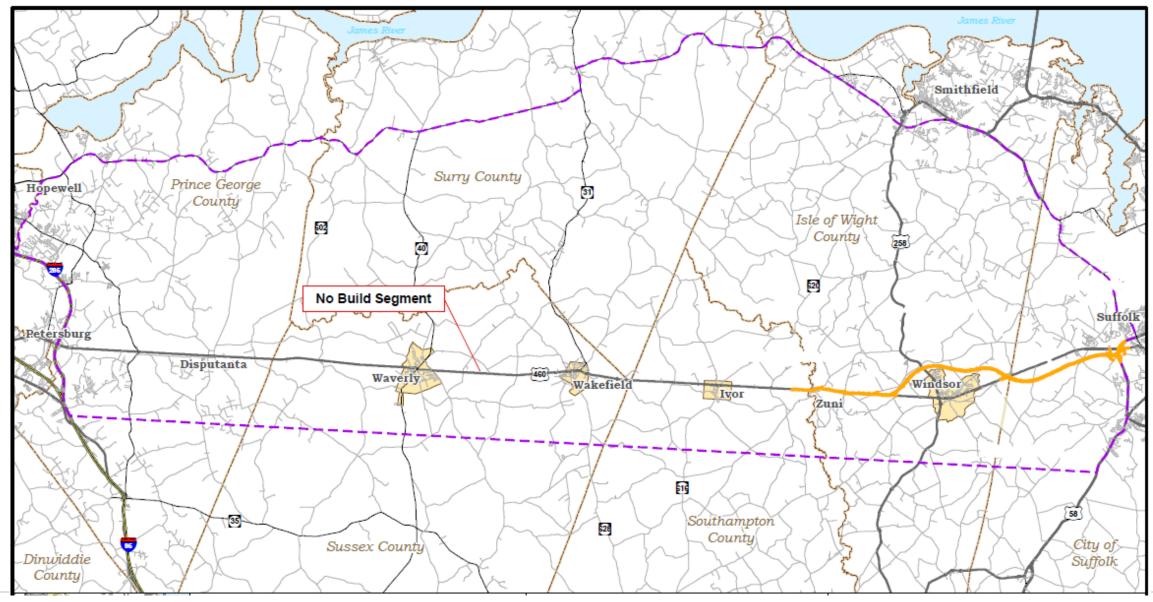

Route 460 Southeast 2015 Preferred Alternative -

- From Interstate 295 to approximately one mile west of Zuni, the No Build Alternative would be implemented (approximately 36 miles);
- From approximately one mile west of Zuni to two miles west of Windsor, the existing Route 460 would be upgraded to a four-lane divided highway and include a new bridge across the Blackwater River to eliminate long standing flooding problems (approximately four miles); and,
- From approximately two miles west of Windsor to the Route 460/58 interchange in Suffolk, a new four-lane divided highway would be constructed, running north around Windsor, then east of Windsor running south of the existing Route 460 (approximately 12 miles).

Actions Taken Since Final SEIS

- USACE issued a permit for the Preferred Alternative December 2016
- A SMART SCALE application was submitted in Round 2 (FY18) and was not selected for funding
- The project was removed from the region's Constrained Long Range
 Plan in January 2019
- FHWA has not issued a ROD for the new preferred alternative, due to lack of funding

VDOT Recommendation

Rescind the 2015 Location Decision

The following actions would be required to advance the approved location:

- Funding
- NEPA re-evaluation
- CTB briefings with the opportunity to issue a new location decision
- New USACE permit

Commonwealth Transportation Fund Recommended Distributions	<u>8</u>
Summary of Revenues	<u>12</u>

During its 2020 session, the Virginia General Assembly enacted the Governor's Omnibus Transportation Bill, Chapter 1230 (House Bill 1414), which revised the composition of and increased available revenues for transportation funding in the Commonwealth. Under Chapter 1230, the Commonwealth Transportation Fund (CTF) serves as the fund to which all transportation revenues are deposited and then distributed to programs and funds. These transportation revenues include: (i) motor vehicles fuels taxes and road taxes for diesel fuel; (ii) vehicle registration fees; (iii) highway use fee; (iv) 0.5% statewide sales and use tax; (v) 0.3% statewide sale and use tax for transportation; (vi) 4.15% percent motor vehicles sales and use tax; (vii) motor vehicle rental tax (10 percent of gross proceeds from rentals for most passenger vehicles); (viii) \$0.03 of the \$0.25 per \$100 of assessed value of the statewide recordation tax; (ix) tax on liquid alternative fuel, set at the rate for gasoline; (x) International Registration Plan fees; and (xi) onethird of the revenue from insurance premium taxes.

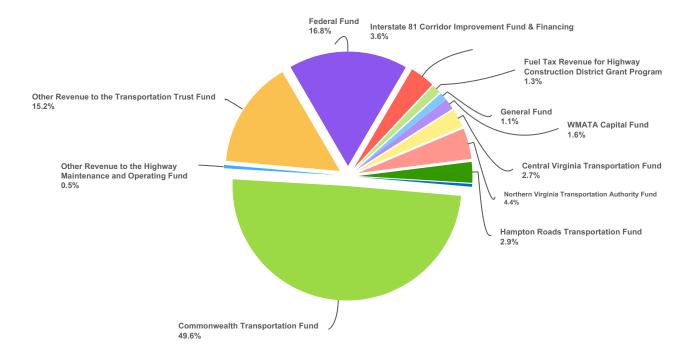

Chapter 1230 also amended the allocation of funds. Before funds are distributed between the Transportation Trust Fund and the Highway Maintenance and Operating Fund ("HMO Fund"), (i) \$40 million annually will be deposited into the Route 58 Corridor Development Fund; (ii) \$40 million annually will be deposited into the Northern Virginia Transportation District Fund; and (iii) \$80 million annually (as adjusted annually based on changes in consumer price index for urban consumers) will be deposited into the Special Structure Fund. Enactment Clause 11 of Chapter 1230 provides the Commonwealth Transportation Board the ability to take actions deemed necessary in fiscal years 2021, 2022, and 2023 to ensure funds for modal programs and the highway maintenance and operating fund are at least equal to the amounts provided for in the six-year financial plan for the Commonwealth Transportation Fund as in effect on January 1, 2020.

Toll revenue and concession payments to the Commonwealth under the Public-Private Transportation Act of 1995 also would be deposited to the Commonwealth Transportation Fund and allocated to the Transportation Trust Fund (for defined purposes and not available for further distribution). Interest, dividends, and appreciation accrued to the Transportation Trust Fund or the HMO Fund also would be allocated to the Commonwealth Transportation Fund and distributed two-thirds to the Virginia Transportation Infrastructure Bank and one-third to the Transportation Partnership Opportunity Fund.

The remaining funds in the Commonwealth Transportation Fund are allocated 51% to the HMO Fund and 49% to the Transportation Trust Fund. Chapter 1230 directs the following distribution of funds from the Transportation Trust Fund: (i) 53% for construction programs; (ii) 23% to the Commonwealth Mass Transit Fund; (iii) 7.5% to the Commonwealth Rail Fund; (iv) 2.5% to the Commonwealth Port Fund; (v) 1.5% to the Commonwealth Aviation Fund; (vi) 1% to the Commonwealth Space Flight Fund; (vii) 10.5% to the Priority Transportation Fund; and (viii) 1% to the Department of Motor Vehicles. Enactment Clause 11 of Chapter 1230 also allows the Commonwealth Transportation Board to take actions deemed necessary in fiscal years 2021, 2022, and 2023 to ensure appropriate coverage ratios for any outstanding debt backed by the Transportation Trust Fund.

The Fiscal Year 2024 budget for the CTF identifies the estimated revenues and the distribution of the revenues to the related transportation agencies and programs. It is based on the state revenue forecast from December 2022 and reflects implementation of federal funding provided under the Infrastructure Investment and Jobs Act (IIJA). The FY 2024 CTF Budget totals \$9,693,157,030.

The CTF receives revenues from dedicated state and federal sources. The major state revenues are based on Virginia's official revenue forecast developed by the Department of Taxation. The federal revenues from the Federal Highway Administration and the Federal Transit Administration are estimated by the Virginia Department of Transportation (VDOT) and the Virginia Department of Rail and Public Transportation (DRPT). Revenues provided are also from funds collected for regional transportation improvements in Northern Virginia, Hampton Roads, and Central Virginia. These funds are dedicated to the efforts of the Northern Virginia Transportation Authority, Central Virginia Transportation Authority, and the Hampton Roads Transportation Accountability Commission.

The revenues are dedicated to specific funds within the CTF. After certain distributions required by the Code of Virginia, the remaining funds in the CTF are allocated 51% to the Highway Maintenance and Operating Fund (HMOF) and 49% to the Transportation Trust Fund. Chapter 1230 directs the following distribution of funds from the Transportation Trust Fund: (i) 53% for construction programs; (ii) 23% to the Commonwealth Mass Transit Fund; (iii) 7.5% to the Commonwealth Rail Fund; (iv) 2.5% to the Commonwealth Port Fund; (v) 1.5% to the Commonwealth Aviation Fund; (vi) 1% to the Commonwealth Space Flight Fund; (vii) 10.5% to the Priority Transportation Fund; and (viii) 1% to the Department of Motor Vehicles.

The revenues for the HMOF support highway maintenance, operations and administration. The Priority Transportation Fund (PTF) revenues are dedicated to debt service on the Commonwealth of Virginia Transportation Capital Projects Revenue Bonds. The Commonwealth Transportation Board can also use the Fund to facilitate the financing of priority transportation projects throughout the Commonwealth. Federal revenues are used for their defined purposes to support construction, maintenance or transit.

Overview

The Fiscal Year 2024 budget for the Virginia Department of Transportation (VDOT) identifies the estimated revenues and the distribution of the revenues to the related transportation programs. It is based on the state revenue forecast from December 2022 and reflects implementation of federal funding provided under the Infrastructure Investment and Jobs Act (IIJA). The VDOT Budget for FY 2024 totals \$8,563,442,136 a 2.5%% increase over the Second Revised FY 2023 VDOT Budget of \$8,351,976,310.

Chapter 1230 created the CTF which serves as the fund to which all statewide transportation revenues are deposited and then distributed to programs and funds. These transportation revenues include: (i) motor vehicles fuels taxes and road taxes for diesel fuel; (ii) vehicle registration fees; (iii) highway use fee; (iv) 0.5% statewide sales and use tax; (v) 0.3% statewide sale and use tax for transportation; (vi) 4.15% percent motor vehicles sales and use tax; (vii) motor vehicle rental tax (10 percent of gross proceeds from rentals for most passenger vehicles); (viii) \$0.03 of the \$0.25 per \$100 of assessed value of the statewide recordation tax; (ix) tax on liquid alternative fuel, set at the rate for gasoline; (x) International Registration Plan fees; and (xi) one-third of the revenue from insurance premium taxes.

VDOT's revenues are provided by dedicated state and federal revenue sources. The major state revenues are estimated by the Department of Taxation and are included in the state's official revenue estimate. VDOT continues to estimate federal revenues based upon information received from Federal Highway Administration (FHWA). The budget also includes the regional revenues provided to the Northern Virginia Transportation Authority, the Hampton Roads Transportation Accountability Commission, and the Central Virginia Transportation Authority.

Highway Maintenance & Operating Fund

The Highway Maintenance and Operating Fund (HMOF) is one of VDOT's major funds. The HMOF is intended to provide for the agency's maintenance, operations and administrative needs. Since Fiscal Year 2002, the HMOF has required transfers from the Construction Fund to cover the budgetary needs of the fund. With the updated revenue assumptions for FY 2022, this transfer reversed direction and the HMOF provided \$57.5 million to the Construction Fund, representing revenue in excess of budgetary allocations needed. The transfer from the Construction Fund to the HMOF returns in the FY 2023 recommendations.

Commonwealth Transportation Fund & Transportation Trust Fund

Chapter 1230 amends the allocation of funds. Before funds are distributed between the Transportation Trust Fund and the Highway Maintenance and Operating Fund (HMOF), (i) \$40 million annually will be deposited into the Route 58 Corridor Development Fund; (ii) \$40 million annually will be deposited into the Northern Virginia Transportation District Fund; and (iii) \$80 million annually (as adjusted annually based on changes in consumer price index for urban consumers) will be deposited into the Special Structure Fund. Enactment Clause 11 of Chapter 1230 provides the Commonwealth Transportation Board the ability to take actions deemed necessary in fiscal years 2021, 2022, and 2023 to ensure funds for modal programs and the highway maintenance and operating fund are at least equal to the amounts provided for in the six-year financial plan for the Commonwealth Transportation Fund as in effect on January 1, 2020. The following table provides details on revised distributions for Fiscal Year 2024.

The following table summarizes VDOT's budget by the major budgetary programs.

The Environmental Program consists of the following service areas:

Environmental Monitoring and Compliance for Highway Projects (514008) - To provide efforts to evaluate, monitor and maintain the quality of the state's natural resources as part of a balanced consideration of environmental and transportation needs. VDOT's wetland mitigation program is funded in this service area.

Environmental Monitoring Program Management and Direction (514009) - To provide activities related to the management and direction of the program. Adequate and effective management and direction is critical to the success of the program.

<u>Municipal Separate Storm Sewer System Compliance Activities (514010)</u> - To provide efforts to address storm water discharges, including the related operational and maintenance activities, to meet Total Maximum Daily Load reduction targets. VDOT's current Municipal Separate Storm Sewer System (MS4) permit requires VDOT to reduce its pollutant load allocation to the Chesapeake Bay.

Ground Transportation Planning and Research is comprised of:

<u>Ground Transportation System Planning (602001)</u> - To provide efforts to lead and plan a comprehensive system of ground transportation, including the planning of particular ground transportation projects through surveying, mapping and studies. These studies are the basis for decisions on proposed highway plans, programs and projects, as well as other travel modes and routes throughout Virginia.

<u>Ground Transportation System Research (602002)</u> - To provide efforts devoted to the planning and delivery of a comprehensive ground transportation research, development, consulting and technology transfer program covering the areas of transportation system operations, maintenance, structural design and construction, materials and specifications, safety, environmental stewardship, finance and policy.

<u>Ground Transportation Program Management and Direction (602004)</u> - To provide activities related to the management and direction of the program. Adequate and effective management and direction is critical to the success of the program.

For Fiscal Year 2024, the funding made available for distribution is distributed via the formula outlined in the Code of Virginia, § 33.2-358. With the enactment of Chapter 1230, funds are distributed to the following programs: State of Good Repair Program, High Priority Projects Program, Construction District Grant Program, Interstate Operations and Enhancement Program, and Virginia Highway Safety Improvement Program. Enactment Clause 11 of Chapter 1230 provides the Commonwealth Transportation Board the ability to take actions deemed necessary in fiscal years 2021, 2022, and 2023 to ensure funds for modal programs and the highway maintenance and operating fund are at least equal to the amounts provided for in the six-year financial plan for the Commonwealth Transportation Fund as in effect on January 1, 2020. The following table provides details on distributions for Fiscal Year 2024.

The budget also contains a significant application of Toll Credits that are used as "soft match" to meet the nonfederal share matching requirements. The federal share on most projects in the future can effectively be increased up to 100 percent. However, the use of soft match does not increase the federal funding available to Virginia.

Commonwealth Toll Facilities (606)

Revenues collected from toll facilities contribute to Virginia's safe and effective transportation system. Of these facilities, four are currently owned and operated by VDOT: Powhite Parkway Extension Toll Road in Chesterfield County, George P. Coleman Bridge in Gloucester County, I-66 Inside the Beltway and I-64 Express Lanes.

Toll Facility Acquisition and Construction (606001) - To provide for efforts to acquire and construct ground transportation toll facilities.

Toll Facility Debt Service (606002) -To provide for the debt service requirements of the debt-financed toll facilities. The bond indentures for the toll facilities require the Commonwealth Transportation Board (CTB) to set toll rates for all classes of vehicles which will provide sufficient net revenues to meet the facility's obligations. Toll roads are typically constructed with debt financing and the subsequent toll collection revenues are used for debt service payments. The remaining state-owned facility collecting tolls to pay debt service on outstanding bonds is the George P. Coleman Bridge located between Gloucester and York counties. The bonds issued to finance the Powhite Parkway Extension have been retired, but the toll revenues are needed to repay the outstanding debts of the facility owed to VDOT and Chesterfield County.

<u>Toll Facility Maintenance and Operation (606003)</u> - To provide for the operational costs of the four toll facilities operated by VDOT: the George P. Coleman Bridge and the Powhite Parkway Extension Toll Road, I-66 Inside the Beltway facility and I-64 Express Lanes. All operating costs associated with that facility are to be paid out of the revenues generated by that facility. Customer service and toll collection are toll facilities' main operations.

<u>Toll Facilities Revolving Fund (606004)</u> - To provide a method to finance and/or refinance existing and potential toll facilities. Funds allocated from the Toll Facilities Revolving Account intended for planned or operating toll facilities are considered advance funding and are expected to be repaid to the Toll Facilities Revolving Account.

Financial Assistance to Localities consists of:

Financial Assistance for City Road Maintenance (607001) - To provide monetary support to localities for capital improvements and/or maintenance of roads and/or transportation facilities. Direct financial assistance is provided to 84 cities and towns to maintain, operate, and improve their arterial and collector roads and local streets. The level of assistance to the respective local governments for maintenance expenditures is based on the number of qualifying lane-miles in each locality and available funding.

Financial Assistance for County Road Maintenance (607002) - Provide monetary support in lieu of maintenance services to localities for road maintenance and upkeep where such localities have elected to maintain their own highway systems. Currently, Henrico and Arlington maintain their own roads.

Financial Assistance for Planning, Access Roads, and Special Projects (607004) - To manage and distribute funding for recreational and industrial access programs and the Metropolitan Planning federal grant program. The Recreational Access Program provides funding for roads and bikeways to new or expanding non-federal, noncommercial public parks and historic sites. Access roads for qualifying airports and industrial sites, and access tracks for qualified rail users are provided through VDOT's Industrial, Airport, and Rail Access Fund. The Metropolitan Planning Grants are federal funds available to support activities undertaken by Metropolitan Planning Organizations (MPOs) to develop long-range transportation plans and transportation improvement programs.

Soft Match	The budget contains a significant application of Toll Credits that are used as "soft match" to meet the non-federal share matching requirements. Section 120(j) of Title 23 permits states to substitute certain previous toll-financed investments for state matching funds on current Federal-aid projects. It permits the non-Federal share of a project's cost to be met through a "soft match" of toll credits. The federal share on most projects in the future can effectively be increased up to 100 percent. However, the use of soft match does not increase the federal funding available to Virginia.
