- Public outreach

Multimodal Solutions - 495 to Haymarket

Transit/TDM/Park-and-Ride

- Received comments from PRTC and Fairfax County on transit plan and working to incorporate/address
- Refining transit service plan based on comments received during public hearing and from transit operators
- NEPA coordination regarding avoidance alternatives for park-and-ride facilities with Section 4(f) environmental impacts
 - Haymarket (US 15)
 - Manassas (Balls Ford Road)
- Meeting with Transit Technical Advisory Group (TTAG) on July 14th to share public and stakeholder transit comments received

Multimodal Solutions - 495 to Haymarket

Moving Forward

Two Track Process

- 1. Develop and advance the public finance option.**
- 2. Evaluate the P3 option against the published Draft Term Sheet.**
 - Conduct one-on-one meetings with potential P3 concession teams.
 - Based on inputs from the meetings, VDOT and DRPT will determine whether the P3 option should be considered and advanced.
 - Present findings to the Transportation P3 Advisory Committee.

If it is determined that moving forward with the development and operation of the facility pursuant to the PPTA serves the public interest a P3 procurement will be advanced. A public finance option will also continue to advance.

Multimodal Solutions - 495 to Haymarket

Key Milestones

| Key Milestones | Dates |
|---|--------------------|
| Transportation P3 Advisory Committee determination expected | July 2015 |
| Public Outreach for preferred alternative | Ongoing |
| Present preferred alternative at CTB Workshop | September 15, 2015 |
| CTB decision on preferred alternative | October 14, 2015 |
| TPB action on project in CLRP | October 2015 |
| Final Environmental Document | End of 2015 |
| Design Public Hearing | 2016 |
| Construction Start | 2017 |
| Open to traffic | 2021 |
