Subject: Approval of Limited Access Control Change (LACC) for Interstate 95 Exit Ramp at Route 301 (Exit 45),
County of Prince George

Dear Commonwealth Transportation Board Members:

The Virginia Department of Transportation (VDOT) has received the request above for your consideration. The County of Prince George in partnership with the Cameron Foundation, a non-profit, is asking the Commonwealth Transportation Board (CTB) to consider and approve a shift of the limited access line of Interstate 95 Exit Ramp at Route 301, to accommodate the location of gateway spires within existing right of way of Route 301 but outside of the proposed limited access line as part of a gateway enhancement and beautification project.

The request meets the engineering criteria and guidelines set forth in Title 24, Agency 30, Chapter 401 of the Virginia Administrative Code. I have reviewed the Staff's recommendations, and with the requirements of the resolution, determined that granting this change of limited access control will not adversely affect the safety or operation of the affected highway network. I have determined that this request should be considered by the Board.

Sincerely,

A handwritten signature in blue ink that reads "Garrett W. Moore".

Garrett W. Moore, P.E.
Chief Engineer
