Timeline

- **March** **2008 Acts of General Assembly**
- **March** **Brief overview to CTB**
- **April** **CTB Approval of Board Policy**
- **May** **Overview of Program Guide Changes**

Background

- **50/50 matching program**
- **Up to \$100 Million (\$50 M state funds)**
- **Open to Counties and Cities and Towns (Urban)**
- **Max allocation of \$1 Million per locality**
- **Allocations provided via tiered approach**

Substantive Changes

- Funds are focused on projects that will: “improve, construct, or reconstruct” the system. Projects classified as “maintenance” are no longer eligible
- The tiers for priority of funding have been modified
- Projects must be initiated within three years of allocation or the CTB may reallocate the funds
- Specifically states that, at the request of the locality, VDOT may provide the locality with engineering, right-of-way acquisition, and/or construction services for a project on a reimbursement basis
- Eliminates the limitation on the use of proffer funds for the local match
- Codifies funding limits of program (min of \$15 M and max of \$50 M)

New Tier System

- The prior first-tier commitment of more than \$1 million by the locality has been eliminated
- Priority 1 – projects that are Locally-administered* (previous priority 2)
- Priority 2 – projects for which the locality commits more local funding than the amount of revenue sharing funding requested (no minimum dollar amount is specified)
- Priority 3 – projects that will accelerate an existing project in the Six-Year Plan or in the locality's capital plans (unchanged)
- Priority 4 – all other eligible projects that require an equivalent matching allocation from the locality (unchanged)

* Enactment clause specifies that the new Tier 1 establishing priority for locally-administered projects will not be effective until July 1, 2009 (FY 2010 program of projects). This was intended to provide localities additional time for assuming project administration.
