

SMART SCALE Process Review

The SMART SCALE process is a project prioritization tool used since 2016 to inform the Commonwealth Transportation Board (CTB) on project funding decisions

OIPI is conducting a full review of the SMART SCALE Process, in collaboration with VDOT and DRPT, to ensure SMART SCALE is meeting the intended goal of identifying projects that provide the greatest benefit for the investment

Key Components of Process Review

 <h3>Statistical Analysis</h3> <p>Analysis of the performance and outcomes of the past funding rounds</p> <p>Identification of potential biases and related causes</p>	 <h3>Survey Assessments & Public Input</h3> <p>Review feedback provided related to:</p> <ul style="list-style-type: none"> - Process performance and public perceptions - Administration, communications, and customer service 	 <h3>Procedural Review</h3> <p>Identify procedural improvements including application updates, communications, and process improvements</p>	 <h3>Code and Policy</h3> <p>Recommend</p> <ul style="list-style-type: none"> ▪ Procedural changes ▪ CTB Policy changes ▪ Code changes
